Confirmation of Support

On behalf of BLUETOWN ApS I wish to convey our support regarding the fiber project envisioned by Lyle Fabian and KATLOTECH in the North West Territories of Canada.

BLUETOWN is a supplier of Wi-Fi solutions leveraging solar power and reliable battery backup for rural and remote communities. We see a possible cooperation with KatloTech where we leverage their trans-territorial fiber link and our solutions to provide last mile Internet access to remote First Nations communities in North West Territories of Canada.

We wish Mr. Fabian continued success in his initiative to deploy the fiber line, and we hope we will be using it upon launch.

Yours sincerely
