## **RE: In Support for the Next Generation Fiber Optic Network**

On behalf of Petro Comm Industries Ltd. (PCI Supply), I am writing this letter in support of Mr. Lyle Fabian and KatloTech for their vision and proposal for the Next Generation Fiber Optic Network. This Network has the capability to reach, enhance and tie together all Canadians living in the Northwest Territories.

This Network will enhance and contribute to the betterment of First Nations communities throughout the Northwest Territories. It will allow for education, financial and medical services to be delivered over a fast, reliable, and secure best in class fiber optic network.

PCI Supply and our consortium of high quality Outside Plant (OSP) Telecom Manufacturers look forward to working with KatloTech and the rest of their partners to achieve this worthwhile and necessary goal. We are committed to doing our part!

We wish KatloTech continued success in this very exciting and necessary initiative. We look forward to being part of the solution and success.

Sincerely,

Kelly Keylor

President

PCI Supply
